

What's Your Level?

- *First Timer*

Never skied before and ready to start. We'll get you comfortable with your equipment and take your first steps on snow together.

- *Beginner*

You've had your first taste of the slopes. You can slide and stop, and you're beginning to find your balance on a snowplow.

- *Elementary*

You're linking your first turns on easy terrain, alternating between snowplow and parallel, and growing in confidence with every run.

- *Basic*

You're skiing parallel on blue runs and starting to adapt your turns to different gradients and snow conditions.

- *Basic Intermediate*

You're using your poles with purpose and carving clean parallel turns across all slope types with growing control.

- *Intermediate*

You're comfortable on red runs and confidently mixing short, medium, and wide turns to suit the terrain.

- *Advanced*

You read the mountain instinctively, adapting your technique fluidly across all slope difficulties including easier black runs.

- *Expert*

Complete mastery. Any slope, any condition, any turn — skied with confidence and elegance.
